

# INSTITUTE MEN MEET

Purchase by U. S. Government Still Being Discussed.

## CRUISE OF THE DOLPHIN

Members of House Naval Committee to Have an Enjoyable Trip—Deaths of Children in the National Capital

The Times-Dispatch Bureau, No. 1417 G Street, N. W., Washington, D. C., July 10, 1903. A big Virginia Military Institute meeting in this city is planned for next week. The evening has not yet been set, but the old Institute men have arranged to have a New Market "experience" meeting, attended by all V. M. I. graduates residing here, at which those who went to the Institute to attend the New Market week exercises will tell those who could not attend of what was said and done.

There are many old cadets in this city who occupy prominent places in the business and social world. "Twenty-eight States, the District of Columbia and Mexico had students at the Virginia Military Institute last year," said an attaché of the War Department to-day. "I am deeply interested in the suggestion that the Institute be chartered by the national government and be made an auxiliary to West Point. It is very clear that the West Point Academy will have to be enlarged in a few years. It would be cheaper to buy the V. M. I. from the State of Virginia and make it a national institution. Of course Virginia could reserve the right to appoint cadets to free tuition."

A movement has been set on foot here to have the V. M. I. battalion brought here and encamped a week, and the suggestion of Congress in order to let Congress and the people of the country generally see what is being done at the Lexington school. There are very many young men desirous of entering the army who cannot gain admission to the West Point. It is realized that it would be greatly to the benefit of the Institute to let these know that an army commission is about as certain for a V. M. I. graduate as for a graduate of West Point.

It is very probable that a bill will be introduced in Congress next year providing for the appropriation of a sum every year for the support of the Virginia Military Institute.

The attaches of the Patent Office are surprised and disgusted at the fact that there has not been the usual falling off in applications for patents this summer. There were granted seven hundred and thirty-one patents in the month of June, and the number of applications on file is as great as during any of the winter months. The number of patents granted the past year was greater than in any year in the history of the government.

Ernest M. Dewey, of Goldsboro, N. C., a distinguished graduate of the V. M. I. in the class of 1903, will be a candidate for appointment to one of the Cecil Rhodes scholarships at Oxford, A. North Carolina man who has been a member of the Institute authorities to have made a better record at the institution than any cadet in recent years. The name of a Virginia candidate for one of the scholarships has not been announced.

Secretary Root and Secretary Medley, of the War and Navy Departments, have flatly refused the petition of employees that the offices in the two departments be closed at 3 o'clock P. M. The offices of the departments are supposed to begin work at 9 o'clock A. M., work until noon, take a half-hour for lunch and then give to Uncle Sam their time until 4 P. M. It would not strike the average American that six hours and a half formed a long day, and so Mr. Root and Mr. Medley appear to have thought. At any rate, was announced this afternoon that shorter hours would not be granted.

It was stated here to-day by a man in position to know that John D. Rockefeller and George and Frank Gould, through their agents, were purchasing all the water front land on York River at West Point that could be obtained. It is not known whether the purchases are in the name of the Wabash Railway, which may want to secure a deep water port at West Point, or for the Virginia Passenger and Power Company, of Richmond, which may desire to obtain land upon which to place attractions for Richmond and the surrounding country. The construction of a line to West Point.

The following marriage license has been granted here: Jesse Whitlock, twenty-eight years, and Ella Bowler, nineteen years, both of Richmond.

The United States dispatch boat Dolphin left here yesterday morning with the members of the House Committee on Naval Affairs, and will be bound for Newport News. The committee will inspect the several vessels under construction for the government at the Newport News yard, and will make a short visit to the Norfolk yard. Thence the Dolphin will carry the committee to League Island, where the new battleship Portsmouth, after which visits will be made to the more important stations at the Newport News and League Island, and the expenses of the trip are borne by the government, out of a contingent appropriation of \$15,000 for the navy, \$15,000, but this does not include any cost for drinks or cigars.

Representative Rixey, of the Eighth Virginia District, is with the party, and other members of the committee aboard are: Representatives Foss, of Illinois; Dayton, of West Virginia; Lonsdale, of New Jersey; Mudd, of Maryland; Watson, of Indiana; Cousins, of Iowa; Roberts, of Massachusetts; Meyer, of Louisiana; Kitchin, of North Carolina; Vandiver, of Missouri, and a few others.

Mr. C. E. Bolton, private secretary to President Stevens, of the Chesapeake and Ohio, is at the Raleigh. "The newspapers seem to be making a great deal of the growling that Virginia cities and to be overlooking Richmond," said Mr. Bolton. Newport News and Norfolk are growing at a wonderful rate, but it is strange that people generally seem to have overlooked the fact that within a recent period Richmond has become the greatest manufacturing city south of the Potomac and Ohio, with the single exception of Louisville. As an indication of the prosperity of Richmond, I may mention the fact that just a few days ago plans were filed for five big buildings of eight and ten stories each.

efforts were generally made to keep bottles and nipples clean. Seven children of one year and under died in Washington yesterday.

It is stated here that Mr. Frank Thompson has sold his fine farm in Fauquier, near Bealeton, for \$5,000 to Mr. Joseph Jones, of Pittsburg, Pa. The price paid was \$5,000 for 200 acres. Mr. Jones will make a fine country home. Within the past eight months Northern men have bought nine estates on the Rappahannock.

## SMITHY DROPS DEAD

Heat and Work Broke James McMeekin's Throat of Life.

James McMeekin, a blacksmith, dropped dead at 6:30 o'clock yesterday evening at his shop, No. 727 East Cary Street. Coroner Taylor was notified and made an investigation. He found that death was due to hemorrhage from the lungs, possibly brought on by the heat. McMeekin had been working hard at work all day at his shop and the strain and the heat were more than his system would stand. He must have been inclined also towards consumption. Deceased smithy was aged forty-two years and unmarried. He lives on Pleasant Street, near Mosby.

## MYSTIC SHRINE

Imperial Council Will Meet in Atlantic City in 1904.

(By Associated Press.) SARATOGA, N. Y., July 9.—The Imperial Council, Mystic Shrine, will meet at Atlantic City in 1904. George H. Green, of Dallas, Texas, was elected Imperial potentate. The other officers elected follow: Imperial Deputy potentate, George L. Brown, of New York; Imperial chief rabbi, Henry A. Collins, Toronto, Canada; Imperial high priest, E. J. Alderman, St. Joseph, Mo.; Imperial high priest and prophet, Frank C. Boundy, Chicago, Ill.; Imperial orator, E. J. Alderman, St. Joseph, Mo.; Imperial treasurer, W. S. Brown, Pittsburg, Pa.; Imperial recorder, B. W. Dowell, Boston, Mass.; Imperial first ceremonial master, George L. Street, Richmond, Va.; Imperial second ceremonial master, Frederick A. Hines, Los Angeles, Cal.; Imperial master of the guards, Frank Treat, Fargo, N. D.; Imperial outer guard, W. W. Irwin, Wheeling, W. Va.

## NEW YORK CENTRAL IS TO ISSUE NEW STOCK

(By Associated Press.) NEW YORK, July 9.—The extreme weakness to-day of New York Central stock, together with a further decline in the company's 3½ per cent. bonds, gave rise to all sorts of rumors, some of them highly improbable, in the financial district. From a semi-official source it was learned that within the next three months the Central directors will recommend an issue of new stock to pay for terminal improvements in this city. It is not unlikely that a holding company may be organized to carry out these plans.

## PEACEMAKE SHOT BY PARTY TO QUARREL

(By Associated Press.) COLUMBIA, S. C., July 9.—L. W. Rammaso, a man of prominence, was killed to-day by John W. Wham, also of good repute in this county. The killing occurred in Wham's yard, six miles from Laurens, S. C., where Rammaso had gone on request of Mrs. Wham, to make peace between her husband and Thomas Simpson, a neighbor. It was alleged that Wham's conduct towards a fifteen-year-old daughter of Simpson was reprehensible. After the shooting Wham fled and has not been caught. There was great excitement in the county. Wham's wife aided in his escape.

## HENLEY REGATTA UNDER CLEAR SKIES

Delightful Weather Prevailed During Day of the Final Trials.

(By Associated Press.) HENLEY, ENGLAND, July 9.—Delightful weather prevailed during the final day of the Henley Regatta. There was not sufficient wind to affect the results of the events, which were reserved for to-day, and which resulted as follows:

Grand Challenge Cup—Leander beat Third Trinity, Cambridge, last year's winners, by six feet, after an exciting race. Time, 7 minutes and 9 seconds. Ladies' Challenge Plate—Magdalen College, Oxford, beat by a length. Time, 7 minutes and 33 seconds. Thames Challenge Cup—Trinity College, Dublin, beat Kingstown Rowing Club by a length. Time, 7 minutes and 27 seconds.

The Silver Goblet and Nickall's Challenge Cup—Victoria Rowing Club, of Berlin, beat Kingstown Rowing Club by 12 lengths. Time, 8 minutes and 45 seconds. Visitors' Challenge Cup—University College, Oxford, beat Magdalen College, Oxford, by a length and a quarter. Time, 8 minutes and 25 seconds. Wyfold Challenge Cup—Kingston Rowing Club beat the London and Westminster Rowing Club by two lengths. Time, 8 minutes and 5 seconds.

Stewards' Challenge Cup—Third Trinity, Cambridge, beat the Netherlands Rowing Club by two lengths. Time, 8 minutes and 5 seconds. Diamond Challenge Sculls—F. S. Kelsey, of London, beat A. J. Beresford (Kensington Rowing Club) easily. Time, 8 minutes and 41 seconds.

## WHEELLOCK PIANO \$190.

This Piano was taken as part payment on an "ARTISTIC STIEFF PIANO"; this instrument cost when new, \$350. We will sell it for \$190. Fine Walnut Case, overstrung bass, 71-3 octaves, in perfect condition. Do you want a good Piano for little money? Well, here is your chance.

Terms, \$10. Cash, \$7 Per Month.

Investigate!

STIEFF, 431 E. Broad, J. E. DUNBAR, Mgr.

# CONSUMING IRON ORES

Demand for Raw Material Keeps Pace With Production

## STUPEFIED IN VALUE

Production Doubles Every Decade, and Increase Will Go On—Many Oil Wells Drilled in the Kentucky Field.

(Special to The Times-Dispatch.) BALTIMORE, MD., July 9.—Regarding the enormous consumption of iron in the United States as indicative of an inevitably large increase in the values of ores, and, consequently, in the cost of iron and steel, by reason of which some English authorities are claiming that twenty years hence England may regain her lost supremacy in the iron trade, the manufacturers' Record in this week's issue says:

"The fact of the matter is that for some years we had so little appreciation of the true value of our ores that we sold our iron far below its real value. Recently this has changed, and the ironmakers realize that it would be far more profitable to leave their ore in the ground than to sell it at a price which would not cover the cost of production. It is conceded that many a large timber owner would have made more money during the last ten years by leaving his timber in the woods than by selling it as lumber, for the great increase in timber values in that period exceeds the profits made on the lumber, and so ore and iron are being sold at a price which years hence than if it had been mined, iron and sold at a merely nominal profit."

## WONDERFUL INCREASE.

In the manufacture of cotton goods and many other things where the raw material can be indefinitely increased, the conditions are different, but in using coal and iron ore we are consuming the raw material which can never be replaced. Even at the present rate of consumption we are using up about 30,000,000 tons of ore a year, but the consumption in twenty years will far exceed the aggregate of 600,000,000 tons. Long before that period has expired we must consume not 30,000,000 tons, but 50,000,000 or 60,000,000 tons a year, or even more. We are now producing pig iron at the rate of 20,000,000 tons a year, and in every decade for half a century our production has about doubled. At the same rate of increase, 1913 will see us making 400,000,000 tons.

These figures are so enormous that we can scarcely accept them as a safe forecast, and yet during the last ten years we have made an average increase of about 1,000,000 tons a year. Certainly we can hardly do less during the next ten years, and at the same time add to this in part the relative growth based on a larger total increase in population and the accelerating rate of consumption per capita throughout the world.

It is not so much a question whether England may twenty years hence regain its iron trade supremacy by reason of the fact that its production in the United States, as it is a question whether all iron-making countries can increase the world's output rapidly enough to keep up with the demand. There may be temporary ups and downs in the iron trade, but in the long run consumption will inevitably crowd production with an ever-growing scarcity, the cheaper mined ores on which low price iron has been made possible."

OIL WELLS. About fifty oil wells were drilled in Kentucky this year, not including the famous Paducah field, which is being drilled on a systematic basis. A correspondent at Barbourville of the Manufacturers' Record, referring to the central field, says that the large oil wells are being pumped, and as yet there has been no perceptible falling off in production, an average of five barrels daily each being a fair estimate of the production. In these fields the average of producers of heavy grade of oil were drilled in and a few wells of the luminating grade were found. In Wolfe county, which is a deep well field, one gusher was struck in the last week of its depth is about 1,500 feet, and it has a capacity of fifteen barrels daily. In the adjoining county of Morgan, operators are also very active and are going to the top of the world in the number of good wells have already been drilled.

STORAGE LIMITED. In the Southern fields, where marketing has been going on regularly for some time, storage capacity is getting very limited as a result of the constantly increasing production. The total runs from the Wayne field has now reached 150 barrels a day, and as this has to be kept up until the completion of the pipe line to West Virginia, some trouble is being given in caring for it without the heavy expense of erecting additional storage.

During June more wells were completed in the southern part of the State than in the northern, for the reason that the developments are more extensive in the south. The wells are being drilled in the great activity. The Wayne county field held about thirty wells completed during the month, several of them being gushers. At one point in Clay county a well was drilled last week with such an enormous gas pressure that it was some time before tools could be lowered into the hole.

Gold for Export. (By Associated Press.) NEW YORK, July 9.—Goldman, Sachs and Company have engaged \$1,000,000 gold for export on Saturday. Heldreich, Ickelheimer and Company also will ship \$1,000,000 gold by Saturday's steamer.

## BIG BALL GAME HERE NEXT WEEK

Norfolk and Richmond Eagles To Fight for Honors on the Diamond.

The ball game to be played at Broad Street Park next Wednesday afternoon between Norfolk and Richmond Eagles promises to be a game worth seeing. Norfolk Earle will bring up an excursion party to attend the game, and Richmond will supply a big crowd.

Hargrove, the famous old Virginia ball-player, will be on the Norfolk team. The Richmond team line up as follows: Catcher, Nathan Bernstein, pitcher, Barney Brell; first base, James Kain; second base, Rosendorn; shortstop, Jon West; third base, Lonnie Wilson; left field, Jacobs; center field, Carmody; right field, Bashon.

The game will be called at 4 o'clock, so the Norfolk excursionists may catch the train.

# POISON IN THE SWEETS

Man Under Arrest for Murder of Sweetheart.

## REFUSES TO DISCUSS IT

Spent Day With His Sweetheart, and on Leaving Gave Her Candy Which, it is Thought, Resulted in Her Death.

(Special to The Times-Dispatch.) SAVANNAH, GA., July 9.—Roach Barnard was arrested at Glennville, in the lower part of Tattnall county, charged with the poisoning of Miss Weeks last Sunday.

It seems that Barnard and Miss Weeks were sweethearts. He called on her Sunday and spent the day and before leaving gave her some candy. After he was gone she ate a piece of it, and remarked that it was the most bitter candy she ever ate.

Dr. G. W. Tootle conducted the post-mortem examination, but could find no cause for her death other than poisoning. He removed the stomach, and it will be sent to a chemist to be analyzed. A coroner's jury has been empaneled. A warrant, charging Barnard with murder, has been sworn out and the preliminary trial has been arranged for.

## HOTTEST IN NEW YORK FOR TWO LONG YEARS

(By Associated Press.) NEW YORK, July 9.—There were six deaths from heat to-day in New York, six in Brooklyn and fully two score of prostrations. It was the hottest day in two years, or since July 2, 1901, which was the hottest day in the hottest month since the local weather bureau opened in 1871.

The official record of that day, two years ago, was 93 degrees. To-day it ran to 94 degrees at 4 o'clock in the afternoon. Down in the streets humanity suffered terribly. In the tenement districts the heat was unbearable. Little children suffered especially. This state of affairs continued from early morning until late at night. In the evening the scorched inhabitants sought relief on the roofs, at the nearby beaches or by taking car rides.

## METHODISTS GET CLOSER TOGETHER

(By Associated Press.) ASBURY PARK, N. J., July 9.—The joint commission of the Methodist Episcopal and the Episcopal churches, has completed its ritual revision labors in Ocean Grove. The new order of worship adopted supersedes the old one, and provides for kneeling in silent prayer on entering a church.

There are extensive changes in the catechism, in future editions a standard catechism, almost new, will be used in the place of the three now in use. Bishop S. A. Merrill, of Chicago, in an interview, said:

"The utmost harmony has prevailed among the members of the Episcopal, North and South, are closer to-day than they have been since they separated in the days of slavery. The old and the new are practically the same as now used in the church North."

The Rochester Herald says, President F. D. Rowley of the Eastern League, has his fingers in too many pies to make a success of the league. He is associated in many enterprises. An exchange contains the announcement that Leon De Montreville, a brother of Gene, has been let off by Haverhill, Mass., for his services with the Worcester club, of which Gene is manager.

The Buffalo club has four batters high in the batting order. One is South, North and South, are closer to-day than they have been since they separated in the days of slavery. The old and the new are practically the same as now used in the church North."

Daily's first appearance with the Reds at Cincinnati was a very busy one for him. He picked up a ball, a bunch of pebbles off his field to guard against ground balls hitting them and deflecting the sphere from its course.

"Red" Eichel, the famous old National League pitcher, has deserted the Memphis team. Phil has been restored to successful pitching life through being, but his stomach is a good deal weaker than it was when he first came to the big league.

An Eastern expert has picked the following as the representative team of all college players: Pitchers, Clarkson, of Harvard, and Lynch, of Brown; catchers, Winslow, of Yale, and Bennett, of Princeton; base runners, of Princeton; second base, Metcalfe, of Yale; shortstop, O'Brien, of Yale; third base, Purcell, of Pennsylvania; first base, of Harvard; center field, Barnwell, of Yale, and right field, Cosgrave, of Princeton. There are people who think that the game of baseball is a good enough insider for anybody's money, and he has had innumerable temptations to discard the glory of an amateur career for the money of a professional one. But a few professions where money is handed out in large, fat chunks before it is earned.

Boston Sunday Herald contained the following paragraph of Maurice Wolfe, of the Toronto club, who is a product of the University of Toronto. "Most bewildering of all curvilinear dispensers in the Eastern League, Maurice Wolfe, of the Toronto club, holds a Harvard record in the pitching line. He is a left-hand pitcher, and his curve ball breaks at such a sharp angle as completely to fool the batsman and snare him to cover for the time being."

## ANTS USE TURKISH REMEDY

Guaranteed that no ants or bedbugs will be found within one year, where Turkish Remedy has been used. All druggists. Price, 35c.

# POLITICS IN MANCHESTER

Prominent Men in Strike Situation Discussed by Public.

## OPPOSITION TO THE MAYOR

Republicans May Name a Candidate for State Senate—Death of Mrs. Lou Reynolds—County Committee—Personal.

Manchester Bureau Times-Dispatch, 1112 Hull Street.

Politics have entered deeply into the Manchester situation, and there is much talk about opposition to Mayor Maurice, Chief Lipscomb and City Attorney Clapton.

This talk comes from those who do not approve the calling of troops to Manchester, and is strong among those who gather on the corners and at the resort to talk shop. It is said by this class of citizens that if the election came to-morrow, Mayor Maurice would be easily defeated by Mr. D. L. Toney, who was his opponent last spring. Mr. Toney said that he had not authorized his name to be used in the connection, but many of his friends had already called upon him and tendered him their support for the mayoralty.

"I have said that I had enough of politics," said Mr. Toney. "I have a good business, and am making a good living, and I want to drop out of public life, but it is too soon now to make any statement regarding the mayoralty." The report that a petition was being circulated calling upon the Mayor and the Chief of Police to resign could not be substantiated. Those who spoke of it, said that they had seen it in a newspaper, but had heard one was in existence.

The opposition to the City Attorney comes from the same class that opposes the other, and it was said last night that the Republicans of the Senate and the district would put Mr. A. W. Wilson, of Powhatan, as a candidate for the State senate in opposition to Judge Clapton.

The conservative citizens do not look upon this situation of affairs with favor. They do not see what politics has to do with the present state of things, and are not indulging in talk along that line. It is a question as to which element is the stronger, and it is believed that those who were not against the coming of the military are now cooling down in view of the intermittent disorder that crops out now and then with no military protection.

CEMETERY COMMITTEE. Bids were opened by the subcommittee on cemetery at a meeting last night. Five bidders made application for doing the work of erecting the proposed house for the superintendent of the cemetery. The committee decided to lay the bids before the Finance Committee at the meeting to-night, without recommendation.

DEATH OF MRS. REYNOLDS. After a long illness, Mrs. Lou Reynolds died at 7 o'clock last night at her residence, No. 44 West Street. She leaves three children—Rev. J. W. Reynolds, Mrs. R. A. Bowen and Miss Susan Reynolds, fifteen grandchildren, one son, a brother, in Boston City, and a sister, in Pittsburg. Mrs. Reynolds was an esteemed resident of Manchester for twenty-one years. She was a member of the Baptist Church, and had many friends who mourn her death. The funeral announcement will be made later.

PERSONAL AND NOTES. Superintendent Pulliam, of the public schools, will hold examinations for white teachers in Manchester, and for colored teachers in the district on July 16th and 17th. Miss Blanche Bullock is visiting friends in Norfolk and Ocean. Michael Collins, colored, was sent to jail by Mayor Maurice yesterday on the charge of being a suspicious character.

The Floyd Bass, who was arrested several days ago for alleged disorderly conduct, is not Mr. Floyd Bass, the well known business man.

## OFFICERS CHOSEN

J. W. Cook President of National Educational Association.

(By Associated Press.) BOSTON, MASS., July 9.—The National Educational Association to-day elected J. W. Cook, of Illinois, president; M. C. Henry Rhoads, of Kentucky, treasurer, and fifteen vice-presidents of whom President Cook is the first and Edwin A. Alderman, of Louisiana, the second.

Among the directors chosen were the following: Alabama, J. W. Abercrombie; Arkansas, John R. Hinesman; Georgia, W. M. Slater; Louisiana, John R. Hinesman; Mississippi, E. B. East; North Carolina, Lydia J. Yates; Tennessee, D. J. Johns; Texas, A. Caswell Ellis; Virginia, F. J. Caswell Ellis.

Caswell Ellis, the associate professor of education, University of Texas, at Austin, was one of the largest contributors to the fund. His subject was "The Percentage of Boys Who Leave the High Schools and the Reasons Therefor." He said that only 2 per cent. of the pupils entering the elementary schools graduate.

"The schools and the homes must cooperate better. Teachers and superintendents must learn more psychology and put their courses and discipline in line with adolescent needs."

## OPIMUM HABIT IS UNDER DISCUSSION

(By Associated Press.) MANILA, July 9.—The public discussion of the opium bill was continued to-day. The United States Commission to-day, American lawyers, representing the Asiatic Local Syndicates and also the monopoly of the United States in Hong Kong and Singapore, argued in favor of the adoption of the bill and quoted statistics showing that the rapid spread of the opium habit had been undermining the Philippines since the expiration of the Spanish monopoly.

## ENDEAVORERS IN DENVER, COLORADO

More Than Ten Thousand Attended Opening Meeting. Chorus of 600 Voices.

(By Associated Press.) DENVER, Colo., July 9.—Thousands of Christian Endeavorers from all parts of the United States and Canada, with a few from abroad, arrived here during the day and many more are on the way. More than 10,000 persons attended the opening mass-meeting of the convention this evening in the large tent erected near City Park for the occasion. A rousing chorus of songs, led by Rev. F. H. Jacobs, of New York, preceded the opening of the convention, which was called to order at 2 o'clock by President Francis E. Clark, father of the Christian Endeavor movement. After devotional exercises, led by Rev. Dr. H. B. Tyler, of Denver, a welcoming song was sung by a chorus of 600 voices. Welcoming addresses followed.

At the annual business meeting all the old officers were re-elected as follows: President, Rev. Francis E. Clark, D. D.; Treasurer, William E. Shaw; Clerk, Geo. B. Pratt; Auditor, Fred H. Kiefer. The retiring trustees also were re-elected and presidents for States, Territories and provinces.

# LIGHT AS A FEATHER

and tasty to the last mouthful you will find the rolls, L. Bromm bakes for your health and happiness. No dyspepsia lurks in our output—nothing but health-giving products of good flour leaves our doors. You can count on Bromm's bread, cakes and pies.

L. Bromm, 516 East Marshall Street.

# THE Watt Plow Co. (Inc.)

Cor. 15th and Franklin and 1404 Main Street, RICHMOND, VA.

Representing—Columbus Buggy Co., Columbus, Ohio, High-Grade Vehicles, Gelsner Manufacturing Co., Waynesboro, Pa., Peerless Engines, Saw Mills and Threshing Machines, South Bend Chilled Plow Co., South Bend Ind., Chilled Plows and Cultivators.

A Large and Well Selected Stock of Agricultural Implements of every description, Vehicles and Harness, and Heavy Machinery.

# ICE, COAL, WOOD.

ICE delivered anywhere in the city at as low rates as any other company. COAL until further notice prices for June delivery will be: For Anthracite \$6.00 per ton; Splint, \$5.50 per ton; New River and Pocahontas, \$6.00 per ton. WOOD all kinds—long, sawed and split. Prompt deliveries. Richmond Ice Company, 'Phone 223. A. D. LANDERKIN, Sec'y and Treas.

# THE MULES RESPONSIBLE

William Poole were killed. Mrs. Copenhagen, William Booth and the unknown were fatally injured. Charles Johnson and the two older children of Copenhagen may recover.

# Must Answer for Death of Four Persons.

THREE FATALLY INJURED

The Animals Stopped When the Train Blew, and While They Escaped, the Occupants of Wagon Suffered Death and Injury.

(By Associated Press.) CINCINNATI, O., July 9.—A west-bound Pennsylvania train struck a wagon containing nine people at a crossing eight miles of this city to-night, killing four, fatally injuring three and seriously injuring two of the occupants of the wagon, which was coming at a high speed. When the engineer saw them, he blew his whistle, but it was too late to reverse or stop the train. The mules on hearing the whistle stopped and could not be moved. The animals were across the track and escaped unhurt, while the wagon was wrecked and all the occupants either killed or injured. The train brought the victims to this city. The dead were taken to the morgue and the injured to the hospital. Robert Copenhagen and one of his children, a girl named Grace, and

Mr. W. L. Goodwyn, of Nottingham county, who has been very sick in Richmond, is much improved, and is now visiting his sister, Mrs. C. R. Kuyk. Mr. A. S. Pope has left for Charlottesville on business.

Mr. J. J. Wilson has left for New York on a pleasure trip. Mr. and Mrs. E. D. Redd have left for Milboro Springs to spend the summer. Mr. Waterfield has left for New York. Mrs. Calvin Satterfield has returned from a visit to relatives in Albemarle county.

Miss Ethel Gardner has returned to Philadelphia, after a visit to friends on the Heights. Miss Bessie Duval will leave in a few days for Baltimore. Miss Ethel Beckner, who has been visiting Miss Hettie Kittinger, has returned to her home in Lexington.

Miss Mary Jones has returned, after a visit to relatives in Louisiana. Miss Bessie Duval will leave in a few days for Baltimore. Miss Ethel Beckner, who has been visiting Miss Hettie Kittinger, has returned to her home in Lexington.
